Please write here if you are selecting a Members Only Package from our price sheet and what package/packages you are selecting. Please check Each "Test Required" check box for the corresponding test for each sample above.

Sample Type Guide		Minimum Amount needed for testing	
F	Flower	1 ½ Gram	
EC	Edible Concentrates (RSO, Distillate or Decarbed Oil)	.5 Gram	
SC	Smokeable Concentrates (Wax, Shatter, Rosin or Distillate)	.5 Gram	
I	Infusion -	10 ML	
E	Edible	2 Units	
Test Required Definitions		(Dispensaries Please Call for Pricing)	
		Member	Test Cost Non-Member
CPU	Cannabinoid Potency by UPLC – Flowers, Extracts, Infusions and Edibles – Microscopic Inspection Included	\$60.00 ea.	\$70.00 ea.
CPG	Cannabinoid Potency by GC – Flowers and Extracts ONLY	\$40.00 ea.	\$50.00 ea.
TP	Terpene Profiling by GC – FID Flower, Extracts or Topicals	\$40.00 ea.	\$50.00 ea.
RS	Residual Solvents – Analysis for Extracts, Edibles or Topicals	\$40.00 ea.	\$50.00 ea.
RPFE	Rapid Plate Screening w/PCR Confirmation – Flower/Extracts	\$50.00 ea.	\$60.00 ea.
RPEI	Rapid Plate Screening w/PCR Confirmation – Edibles/Infusions	\$75.00 ea.	\$90.00 ea.
MSO	Microbiological Screening Only – Photo Included	\$30.00 ea.	\$40.00 ea.
PST	Sprout/Veg Plant Sexing Test by qPCR Determine the sex of your plants as early as the first leaf.	(1-14) \$30.00 ea. (15 Or More) \$27.50	(1-14) \$30.00 ea. (15 Or More) \$27.50
ECP	Early Chemotype Potential (THC:CBD Ratio) Find out the Cannabinoid potential of your plant while still in the early vegetative stage!	\$25.00 ea. (\$15.00 Add on To Gender Test)	\$25.00 ea. (\$15.00 Add on To Gender Test)
SS	StrainSEEK Genetic Strain Identification and Certification	\$999.00 ea.	\$1,248.00 ea.

Please Fill Out All That Applies Below

Oil, Wax, Shatter

If sample is in a capsule, we need at least three filled capsules and five empty capsules.

Please list extraction solvent and serving size. How do you want your results reported? (% or mg/serving or mg/g)
Is your product activated for edible consumption?

Tincture

What is your dose or serving size? How do you want your results reported? (% or mg/serving or mg/ml or mg/g)

What is your sample matrix? e.g. water, honey, olive oil, vegetable glycerin, other, please list.

Edible -Any item that has an inert object integrated into the product i.e. capsule, sucker stick etc., we will need five empty units to average weight and subtract it from the sample received.

What form of active was used, Bud, trim, Oil, other, please list.

What is your serving size? How do you want your results reported? (% or mg/serving or mg/ml or mg/g)

Please list the main ingredients (listed in order of greatest concentration first)
